

## AIT Joins the World Cargo Alliance Project Network

AIT Worldwide Logistics has become a member of the World Cargo Alliance Project Network, an alliance comprised of the most experienced project forwarders across the globe.

This partnership provides greater visibility to AIT's Houston, Texas based Energy Division, a dedicated team specializing in providing project logistics management solutions to oil production, gas, drilling, refining, construction and procurement organizations around the world.

As a member of this elite network, AIT is entitled to the following benefits in obtaining and negotiating project cargo accounts: increased shipment speed, competitive pricing, technological resources, and enhanced buying power.

AIT's global coverage also expands to include all major trade ports in China, India, Latin America and the Middle East, while including countries geographically difficult to reach, such as Estonia, Kazakhstan and Algeria. ➔
